OFFICER'S REPORT

Brief Description of the site:

The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to alter the existing vehicular entrance pillars, by straightening them, and to install iron gates to the realigned pillars on the existing east boundary entrance.

The iron gates are reasonably ornate, but as this is a domestic property which was built in the Victorian style and the property already has iron railings along the front east boundary, the gates are considered to match. The open pattern work of the gates will protect the visual amenity of the rural area.

The gates are not considered to have any adverse impacts on the character and appearance of the surrounding area, nor will they have any adverse effects on neighbouring properties.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
