Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The conservatory is visible from Route du Camp du Roi to the front (east) of the main dwelling. However, the area comprises a mixture of dwelling types and design and is attached to a two storey extension that forms an extension to the existing bungalow. The siting, scale design of the conservatory does not achieve a high standard of design. However, the site is not within a Conservation Area and the conservatory would not cause sufficient harm to the appearance of the surroundings and the character and amenity of the locality to outweigh the support and flexibility for

extensions and alterations to existing residential buildings as set out in Policy GP13. As a result, the proposal does not conflict with Policies GP8 and GP13.

The application is therefore acceptable in relation to the above policies and other material planning considerations.
