OFFICER'S REPORT

Brief Description of the site:

The site is located at the junction of La Route des Longs Camps, Les Portes and Route de la Ramee and is composed of the converted barn building and detached outbuilding. With the neighbouring detached farmhouse to the east.

The site is located Outside the Centre as designated in the Island Development Plan (IDP).

Relevant History:

Permission to convert the barn was granted in 1975/76 and allowed conversion to a self-catering unit, subsequent permission to convert the barn to a dwelling (residential use class one) and the subdivision of the site was approved under FULL/2023/1269 in January 2024. That permission has been implemented.

Conclusion/Brief comment:

The scale and flat roof design of the extension respects the scale of the existing dwelling and ensures it's subservience. The proposed materials contrast with but complement the existing dwelling and provide a lightweight addition to the granite building. The extension will not be visible from the public highway would not cause harm to the appearance of the dwelling and the character and amenity of the locality to outweigh the support and flexibility for extensions and alterations to existing residential buildings and freedom of choice regarding design/architectural styles, as set out in Policy GP13.

As a result, the extension and pergola achieves a good standard of design and the proposal does not conflict with Policies GP8 and GP13.

The extension is approx. 7.5m away from the rear elevation and windows of the neighbouring dwelling, this is considered adequate to prevent a harmful visual impact or loss of light and will not significantly change the existing relationship between the dwellings as no side windows are proposed which could result in overlooking. The pergola is single storey, flat roof and lightweight in design and so is unlikely to have an enclosing impact on the neighbour, and will result in no more noise/disturbance than the existing use of the land as residential garden.

By virtue of the distance to other neighbouring residential properties the extension would have no adverse effects on the amenities of other neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
