OFFICER'S REPORT

Brief Description of the site:

There is an attached cottage to the west and that property has its gable directly onto Rue de la Villette. There are other detached properties to the north and east. The property is located Outside of the Centres as defined in the Island Development Plan. The property is a Protected Building.

Conclusion/Brief comment:

This application is to demolish the existing shed/garage and erect a domestic garden room to the southeast of the dwelling.

The existing shed/garage, which is essentially too small to be an actual garage, is located at the end of the long driveway, which is located off Rue des Grons in the southeast of the site. This means that the shed is not really noticeable from the road when passing by.

The proposed garden room will be only slightly larger than the existing structure and will be located in the same position, gable onto the driveway. The location, scale and massing of the new structure is not considered to have any detrimental impacts on the special interest of the protected building, it is not considered to have any adverse effects on the character and appearance of the surrounding conservation area or on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
