Conclusion/Brief comment:

Concerns were raised with the application as originally submitted which included the removal of the stone floor within the proposed dining room. The agent has subsequently provided further information to justify this alteration and has confirmed that the stone will be re-used to fill gaps in the yard on the site. On the basis of the additional information submitted the removal of the stone floor and their re-use within the external yard is a reasonable aspiration of the owner.

The remainder of the alterations would have no adverse impact on the special interest of the protected building or are a reasonable aspiration that would outweigh the harm that they would cause, subject to details of specific features including new doors and windows, the Juliet balcony and vents and extractors (all of which can be dealt with by condition).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
