Conclusion/Brief comment:

Whilst projecting forward of the existing dwelling and associated garage on the site, and of surrounding built form, the proposed building would be read against and amongst the surrounding development and would not intrude into the open land to the east. The building design follows the form and materials used in the surrounding development and there would be no adverse impacts on the character of the area.

The position of the building relative to surrounding properties would prevent any adverse impacts on the amenities of those properties.

A statement has been received in respect of sustainable development.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
