Planning Advice Note AN1: Ancillary/Associated Living Accommodation Units a Guide to Development

Conclusion/Brief comment:

Planning permission is sought to demolish an existing extension and erect a replacement extension attached to the rear elevation of the property and to erect an outbuilding to accommodate a dower unit to the rear of the main dwelling. The extension is of no architectural merit and currently detracts from the general appearance of the property and demolition is therefore supported.

The proposed replacement extension and the outbuilding are of an appropriate scale and at single storey level would not harm the amenities of any nearby residential properties with regard to light loss or privacy loss, nor would they detract from the openness of the surrounding area.

The design of the proposals and the materials to be used will match the existing dwelling and situated to the rear of the property would not negatively affect the character or appearance of the surrounding area.

The proposed dower unit will comprise a lounge, kitchen/living area at ground floor with a bedroom and shower room. In support of the application the applicant's agent by letter (dated 02/09/2024) has confirmed that the ancillary living unit will be used for a purpose ancillary to the main use of the dwelling house by family members associated with the main dwellinghouse. The letter confirms that the garden space and utilities will all be shared with the occupiers of the main dwelling and that main meals will be taken in the main dwelling.

The relationship of the occupiers of the dower unit and the principal dwelling, the nature of use and facilities to be shared indicate that the additional accommodation would be subsidiary to and dependent upon the principal dwelling unit. In addition, the size and layout of the site and the relationship between the principal dwelling and the outbuilding would not enable the site to be easily subdivided without compromising the amenity of both the outbuilding and the principal dwelling. A similar sized dower unit in a similar position has also been granted permission in 2023 (FULL/2023/2315) for the neighbouring property to the west.

It is recommended however, that for the avoidance of any doubt an informative is included on any permission to ensure that the accommodation provided remains ancillary to the main dwellinghouse.

Confirmation has been received that the proposed development has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
