Conclusion/Brief comment:

This application is to underpin the existing walls of the barn which is located to the southeast of the property.

Underpinning the existing walls will not alter the appearance of the barn, the works are deemed necessary for the longevity of the barn and therefore in order to preserve the special interest of the protected building and its setting the works are considered to be acceptable and appropriate.

The works will not have any detrimental impacts on the character and appearance of the surrounding conservation area, nor will they have any adverse effects on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
