Conclusion/Brief comment:

This application is to alter the front earthbank boundary and ground levels in front of the property to extend the parking area and widen the existing vehicular access.

Initially the extent of the vehicular opening was considered to be too big for the area and so the application was deferred to request that the opening is reduced to 5m. The approved drawings now show a 5m wide entrance.

The application is acceptable in relation to the above policies and other material planning considerations.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
