Conclusion/Brief comment:

This application is to install replacement pillars to the front vehicular access on the northern boundary.

The existing pillars are approx. 1.2m x 0.45m x 0.45m painted white stone and the proposed pillars are 2m x 0.45m x 0.45m granite pillars, including the cap, with a stainless steel business logo attached to the front of each pillar. The size of the entrance will remain the same.

The extra 0.8m height of the pillars are not considered to have any adverse effects on neighbour amenity.

The existing opening of the entrance is wide and the slightly taller pillars are not going to lessen any existing sightlines. The pillars would be of a scale appropriate to their setting, and there would be no unacceptable impacts on the visual appearance and amenity of the location concerned.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
