Planning permission is requested to erect a 2 storey extension to the side (west) elevation of the existing rear extension, alterations to fenestration and to create a raised terrace and swimming pool with graded earth bank to the rear.

Conclusion/Brief comment:

During the course of consideration the application was deferred due to concerns about the scale and mass of the proposed extension and its impact on the character and appearance of the Conservation Area. Revised plans have been submitted in response which seek to address the concerns raised and have substantially reduced the scope of the works. It is now proposed to retain the majority of the existing rear extension and to erect a 2 storey flat roof extension to the side (west) elevation of the existing rear extension and for alterations to the fenestration to the rear.

The extension is proposed to be finished in natural timber cladding with black aluminium fenestration. The form and design of the extension clearly contrasts with the traditional design of the existing dwelling. However, the extension would be subservient in size to the existing extensions and although it would be partially visible in public views from Rue Du Dos D'Ane to the south and Rue Du Gele to the north-east, the extension is unlikely to form an overly prominent feature from these viewpoints. Details of the construction of the extension could be requested to ensure that it achieves a high standard of design and on balance the extension is likely to have a neutral effect on the character and appearance of the Conservation Area, in accordance with Policies GP4 and GP8.

Due to a combination of the positioning of fenestration and the distance to and relationship with the neighbouring property to the west, the proposal is unlikely to have any significant adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
