Policies considered most relevant:

MC1: Important Open Land in Main Centres and Main Centre Outer Areas

GP4: Conservation Areas

GP8: Design

GP9: Sustainable development

GP13: Householder development

Conclusion/Brief comment:

Due to the topography of the site and surrounding land and mature planting, the dwelling does not form a prominent feature from the public highway. The extension and alterations achieves a good standard of design and would have no adverse effects on the character and appearance of the Conservation Area or the landscape character of the area. The proposal accords with Policies MC1, GP4, GP8 and GP13.

By virtue of the distance to the neighbouring dwelling to the north, the first floor terrace and the proposal as a whole is unlikely to have any significant adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
