OFFICER’S REPORT

Brief Description of the site:

The property known as ‘Havelet House’ is the higher end of a terrace of four properties which are set back from and face south onto Havelet. The attached property is to the east and there is a detached neighbour to the west. The land rises in terraces up to the north and across the road there is a high granite wall with a private garden beyond. The property is located in the St Peter Port Main Centre and Conservation Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is a variation to the previously approved FULL/2024/1008, the variation was initially to extend the rear extension across the whole of the back of the property and remove the chimney on the west gable.

The property is within the town Conservation Area and chimneys are considered to contribute to the special interest of the conservation area and the street scene. Furthermore, the adjacent property still has its chimney and removing the chimney from Havelet House would alter the balance of the buildings and change the visual amenity. The application was therefore deferred to request that the chimney remains intact.

With the chimney removal omitted the proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extended extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the larger extension is not considered to have a detrimental effect on the character and amenity of the surrounding conservation area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
