OFFICER'S REPORT

Brief Description:

The application relates to the installation of a cabrio-rooflight and balcony to the front/north-west of Bantam Cottage, along with the installation of flues to south east (rear) and north east elevations.

The site is located within the Local Centre Boundary for L'Islet as designated in the Island Development Plan.

Policies considered most relevant:

GP9: Sustainable development

GP13: Householder development

Conclusion/Brief comment:

The proposed works introduce a new first floor balcony to the front elevation, this is acceptable in design terms and is unlikely to represent a harmful addition in terms of amenity as the balcony replaces an existing dormer. The balcony will allow views into the road and neighbouring front gardens which are less sensitive in terms of amenity. The neighbouring dwellings are also set approx. 20m away across the road, which provides an acceptable relationship.

The introduction of the flues is acceptable visually as they are positioned to the rear/side and are unlikely to appear out of character. Separate Building Regulation approval may be necessary for these.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
