ADVICE AND OTHER REMARKS:-

For the avoidance of doubt, this decision permits the erection of an extension to be used as an integral part of and incidental to the principal dwelling presently known as C'est La Vie. It does not permit the creation of a separately occupied annex or an independent dwelling. This would require a separate grant of planning permission and involve different planning policy considerations.

Effect of planning permission:

Section 18 of the Land Planning and Development (Guernsey) Law, 2005 ('the Law') defines the effect of the planning permission hereby granted, namely:

(1) Planning permission ceases to have effect unless the development permitted by it is commenced within a period of three years immediately following the date on which it is granted (or such shorter period as may be specified in the permission).

(2) Planning permission enures for the benefit of the land concerned and of every person for the time being having an interest in it.

(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. An appeal to the Planning Tribunal under section 68 of the Law against this decision must be made before the expiry of the period of six months beginning with the date on which the Authority made this decision. The official Appeal Notice Forms are available on the States of Guernsey website at www.gov.gg/planningpanel and must be completed with all enclosures in multiples as requested and received within the six months deadline.

Copy of representations made:

In reaching this decision the Authority took into account any written consultations made under Section 11(1) of the Land Planning and Development (General Provisions) Ordinance, 2007 ('the Ordinance'). A copy of any consultation responses made under section 11 will be included with this decision in accordance with section 19 of the Ordinance.

OFFICER’S REPORT

Brief Description of the site:

The property known as ‘C’est la Vie’ is a two-storey semi-detached late 1960’s dwelling, which is slightly set back from and faces west onto Marette de Bas Estate. The other semi is attached to the north, and there are neighbouring properties to the south, across the road to the west and to the north. To the east beyond a small garden is open agricultural fields. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This is a revised application to extend at first floor level over the existing single-storey side extension to create additional living space, with some alterations to the fenestration and to remove a section of hedge to widen the access and extend the parking area.

In this revised scheme for additional, ancillary, living accommodation, the size of the extension has been greatly reduced, the existing side extension will house a utility room, a shower room and a snug and a first floor extension will house a bedroom and ensuite, entered through the small box room at first floor level. A ground floor internal link is also shown, between the kitchen and utility room.

The extension and snug are to be used by a dependant relative of the occupiers of the main house. The submission sets out that the occupiers would share the kitchen, utility bills, garden and parking areas with the main dwelling.

The proposals are not considered to have any detrimental impacts on the character and appearance of the surrounding area, nor will the proposals have any adverse effects on neighbour amenity

Allowing a remaining section of roadside boundary wall to be removed is unusual, however, the clos is relatively small and has no distinct character where the removal of the wall and hedge would have an unacceptable detrimental impact. Therefore, removing the wall and hedge in this instance is considered to be acceptable.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
