OFFICER'S REPORT

Brief Description of the site:

The application relates to an existing gateway located on the south side of Rue des Talbots, to the north-west of the junction of that road with L'Ecluse and Les Poidevins. The gateway serves an area of agricultural land falling within the same ownership as the Les Galliennes building group to the north-west.

The site is located Outside of the Centres, within a designated Agriculture Priority Area within the Island Development Plan.

Relevant History:

Various applications for development at the Les Galliennes building group to the north-west.

Conclusion/Brief comment:

Provision of a gate within an existing gateway on to agricultural land could be considered as a necessary and ancillary function to the use of that land.

In this case, the addition of a bicycle with signwriting linked to a former use of the adjacent land would comprise a form of public art, and would add interest to the area in an appropriate and sensitive manner, without compromising the use of the adjacent land.

The proposed location is set at a significant distance to the protected buildings at the site, and the proposal would have no adverse impact on the setting of those buildings.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
