OFFICER'S REPORT

Brief Description of the site:

The property known as 'La Pitouillette' is a granite faced two storey pre-1900's dwelling which is slightly set back from and faces northeast onto Route des Talbots. There are neighbouring properties to the southeast and across the road to the northeast. The land rises steeply to southwest and west. The property is located Outside of the Centres and is within the Agriculture Priority Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to take down and rebuild the eastern chimney (which is exempt) and to take down the western chimney and patch the roof, which does require planning permission.

La Pitouillette is only one of a few properties in the area and the building seems to nestle into the small background cliff behind, which means that the building does not stand out. The chimneys therefore are not as noticeable as they would be if they were viewed from all around.

The fact that the house will retain one of the chimneys is considered acceptable and appropriate and therefore to remove one chimney completely is not considered to

have any detrimental impacts on the character and appearance of the surrounding area, nor will it have any adverse effects on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
