OFFICER'S REPORT

Brief Description of the site:

The property known as 'Gable Cottage' has been in existence since before 1900, it is an 'L' shaped single storey dwelling with the northwest gable very close to the road. Rue du Friquet runs along the west boundary, and there are neighbouring properties to the north and south and neighbours gardens to the east. The property is located Outside of the Centres as defined in the Island Development Plan.

IP9: Highway Safety, Accessibility and Capacity

Conclusion/Brief comment:

This is a retrospective application to widen the existing vehicular access from 4.5m to 5.67m, an increase of 0.915m.

The general width of vehicular accesses is between 4m – 5m, which the existing access fell within, however, in this instance the built in garage of the home is on the northwest elevation of the south wing, which is at an angle to the vehicular entrance, allowing an additional 0.9m to the opening means the garage is more accessible.

In this instance the additional width of the vehicular entrance is not considered to have any detrimental impacts on the character and appearance of the surrounding area, nor will it have any adverse effects on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
