The property is located Outside of the Centres and within an Agriculture Priority Area as defined in the Island Development Plan. The main dwelling and some of the outbuildings are protected buildings.

Conclusion/Brief comment:

This application is to demolish the smaller 2 bay outbuilding to the south of the main dwelling and replace it with a very similar modern oak version of the outbuilding with an extra bay. The new outbuilding will be made by the same manufacturers as the adjacent open barn.

The proposals are considered to achieve a good standard of design, the scale and massing of the new outbuilding is not considered to have a detrimental effect on the character and amenity of the surrounding area or the setting of the protected building, nor will it have any impact on either of the immediate neighbours as it cannot be seen from any public vantage points.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
