OFFICER’S REPORT

Brief Description of the site:

The property known as ‘Otterington’ is an early 20th century two storey dwelling which sits in the southwest of the diamond shaped site. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to erect an outbuilding along the southeast boundary. The outbuilding will be used as a games room.

The site has plenty of mature planting along each of the boundaries, with a large mature hedge along the southeast boundary, which is where the proposed outbuilding is to be located. There are no views out of the site and the outbuilding will not be seen from any public vantage points.

The site comprises the main dwelling, a detached dower unit and garden shed to the south of the dwelling and a large detached garage to the north. However, the site is large enough to accommodate another outbuilding without feeling cluttered or over developed.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new building is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
