Conclusion/Brief comment:

Planning permission was granted to extend and alter at ground and first floor level including alterations to the raised terrace area subject to permission reference ref: FULL/2023/1089.

Under this application planning permission is sought for variations to the approved scheme.

The variations include an increase in the floor area at first floor level to the east (front) elevation.

The proposed variation is limited in terms of its overall scale and is in-keeping with the design of the approved scheme. It would not cause a detriment to the visual character or appearance of the surrounding area or negatively affect the amenities afforded to the occupiers of any neighbouring residential properties with regard to overshadowing or privacy.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

For the reasons contained within this report it is considered that the variation proposed is acceptable and accords with the above mentioned Policies of the Island Development Plan.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
