OFFICER'S REPORT

Brief Description of the site:

The site is located within a Conservation Area and is within a Main Centre Inner Area and Important Open Land, as designated in the Island Development Plan (IDP).

Protected Monuments, two late 18th century glasshouses, are located within the wider grounds of Candie Museum, although the Museum itself is a modern building.

The application proposes the removal and replacement of the existing flat roof over the café, which comprises the area adjacent to the bandstand, in the east elevation. The existing flat roof covering is to be replaced with a new membrane, resulting in an approx. 25mm increase in the height of the southern parapet and 130mm to the east, in order to allow for discharge into an external gutter.

The original application included the installation of a Kee Guard guardrail system, however this was removed from the proposal due to Officer concerns regarding the visual appearance and harm to the quality of the area.
