OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested to erect a pitched roof extension and walls/fencing to the external terrace at 1st floor level to the south-east elevation.

The site consists of a former coach house which has been converted to a dwelling and is situated on a corner plot to the north-east of the junction between Queens Road and Les Petites Fontaines. The site is located within the St Peter Port Conservation Area and Main Centre Inner Boundary.

16/03/2006 – PAPP/2006/0068 – Permission granted for the conversion of coach house to a dwelling.

GP13: Householder development

Conclusion/Brief comment:

The extension and alterations combine the use of contemporary materials with a traditional pitched roof design. Whilst the proposal will somewhat contrast with the design of the existing dwelling, it would achieve a high standard of design and is likely to have a neutral effect on the character and appearance of the Conservation Area.

The agent has confirmed that the south-west elevation rooflight will be installed at a high level which will prevent intervisibility issues with the neighbouring property to the south. The rooflight in the north-east elevation would overlook a driveway and parking area on the neighbours property and together with the distance to the neighbours dwelling, the proposal is unlikely to have any significant adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
