Conclusion/Brief comment:

This application is to demolish the existing outbuilding and erect a single storey, pitched and flat roof extension to the south/rear elevation, creating a large kitchen/diner. The scheme also proposes to raise the roof to form a master, en-suite bedroom and study at first floor level, including rooflights on the north roof slope and inset balcony on the south elevation.

The Island Development Plan supports multi-level living as it is considered to be an efficient use of land.

The agent and application have taken on board the pre-application advice and reduced the size of the upstairs accommodation and inset the balcony to reduce the overlooking. Plus reducing the size of the ground floor extension to allow more light into the most habitable rooms.

The proposals that are the subject of this application achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area with properties of varying heights and design. Outlook from adjoining properties will alter as a result of the development. The existing extension/outbuilding to the rear of the adjoining neighbouring properties are such that any overshadowing or loss of light will remain within acceptable limits. The proposal will not result in unacceptable overlooking or loss of privacy to adjoining occupiers.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
