Conclusion/Brief comment:

Permission is sought to vary the previous extant approval for a rear extension from a combined pitched and flat roof to a single pitched roof extending across the width of the building.

The proposed alterations would have no adverse impacts on the appearance of the building or the character of the area. The proposal would include a rooflight to each roofslope of the extension, facing towards neighbouring properties. The existing garage at the property would however prevent any overlooking of the adjacent property to the north and, taking into account the distance to the boundary and layout of the adjacent property to the south, there would be no adverse impacts on the amenity of that property.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
