Conclusion/Brief comment:

This application is to extend and alter at first floor level to the east rear extension. And to erect a one and a half storey three bay timber garage/outbuilding with two garage doors and a car port at ground level and a hobby room/future office at first floor level.

At present the rear of the dwelling already has a two storey element at the northern end, then a small rear dormer to house the central staircase and then the roof slope down from the ridge over the existing rear kitchen. The proposals are to remove the staircase dormer and build up to house a bathroom, ensuite and dressing room over the existing rear entry and kitchen.

Although the proposed first floor extension is not exactly the same as the existing two storey element of the dwelling, these extension are to the rear of the property and so not viewed by the public from any vantage points. In this instances the proposals are considered to be acceptable. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

The three bay one and a half storey timber garage/hobby room is considered to be rather large, however, it is in an area where there are several large properties and outbuildings and so in context the structure is not considered to be excessive and is therefore deemed to be acceptable. The garage/hobby room is located behind the main dwelling close to the existing glasshouse.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
