## OFFICER'S REPORT

### Brief Description of the site:

The property known as 'Brise de Mer' (Formerly Lowlands) is a pre-1900's bungalow with a side lean to extension. The property is set back from Rue du Camp du Douit, with vehicular access from the south end of the west boundary, however the property faces east. There are neighbours to the east and west across the road with the properties large garden to the north and a neighbours garden to the south. The property is located Outside of the Centres as defined in the Island Development Plan.

**Conclusion/Brief comment:**

This application is to demolish the existing lean-to extension and erect a lean-to conservatory onto the north elevation and one on the south elevation, also to install a large flat roof dormer to the west roof slope to service two first floor bedrooms and a bathroom. Plus erect a summerhouse outbuilding to the east boundary of the garden, north of the dwelling.

The rear dormer will only overlook the garden belonging to the property and Rue du Camp du Douit and not any neighbours private amenity space. Therefore the proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extensions will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extensions are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impact on any of the immediate neighbours.

The summerhouse is considered to be an appropriate and acceptable proposal for the site and is considered to comply with policy.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
