Conclusion/Brief comment:

This is a retrospective application to remove a section of boundary hedge and erect a fence.

As the application is for retrospective works it is not possible to ascertain the state of the hedge which has been removed. However it has been removed and replaced with a 1.8m high fence, replacing a soft boundary feature with a hard boundary feature. This is prominently located in front of the front façade of the dwelling in line with the end of one half of the turning circle at the end of the close access road. It gives privacy to the side garden.

The fence continues along the southeast boundary to the adjoining residential property, which is not considered to have any significant impacts.

Following negotiations with the applicant it was agreed that the front fence will be reduced in height to 1.5m, to lessen the impact in views from the clos whilst still retaining some privacy.

The lowered fence will lessen the impact on the character of the surrounding area and it will not impact on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
