Conclusion/Brief comment:

This application is to replace the first floor south facing bedroom window with a juliet balcony and double sliding doors.

The existing first floor window allows for some overlooking, and replacing the window for sliding door is not considered to increase the overlooking from what already exists. Therefore the proposals are considered to accord with the relevant policies.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
