OFFICER'S REPORT

Brief Description of the site:

The property known as 'The Cottage' is an 18th century one and a half storey protected building which is slightly set back from and faces east onto Rue des Hautgards, and its north gable is directly onto La Vielle Marais. There is another building within the curtilage which also faces north onto La Vielle Marais. The property is located Outside of the Centres and within Les Mielles Conservation Area as defined in the Island Development Plan.

Relevant History:

A pre-app in 2024.

Conclusion/Brief comment:

This application was initially to replace the two front sliding sash windows on the front (east) elevation of the Cottage.

However, it is considered that these windows make a positive contribution to the overall special interest of the protected building and replacement would have an

adverse effect on the overall special interest of the property that is not outweighed by the reasonable aspirations of the property owner.

The application was deferred to allow for some amendments. The revised drawing now shows that the existing sash windows are to be repaired and refurbished and put into new timber frames.

Retaining the existing sashes and the sympathetic replacement of the more recent frames meets supplementary guidance CN11 and policy GP5.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
