OFFICER'S REPORT

Brief Description of the site:

The property known as 'Vue de la Carriere' is at present a derelict pre-1900's one and a half storey which sits in the middle of a very small plot. The property faces northwest onto Les Grandes Maisons Road, there is a Protected Building to the southwest, a medical centre to the east and other residential properties to the northwest across the road. Conclusion/Brief comment:

This application is to alter and rebuild the front granite roadside boundary wall filling in the existing pedestrian access and slightly enlarging the vehicular access, also to build a new northeast and southeast boundary rendered block wall, which will be a total height of 2m to the rear coming down to 1.5m where it meets the roadside boundary wall.

The land slightly falls away from the front of the property to the rear hence the different heights of the side wall. The side wall will still reach the roadside boundary wall at a lower level than the front roadside boundary wall of the medical centre.

The proposals are not considered to have any impacts on the character and appearance of the surrounding area, nor are they considered to have any adverse effects on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
