OFFICER'S REPORT

Site Description:

The property known as 'Dire Straits' is a one and a half storey large detached mid-20th century dwelling which is set back from and faces south onto Les Basses Capelles. There are neighbouring properties to the east and west, across the road to the south and open fields to the north beyond the large garden. The property is located Outside of the Centres as defined in the Island Development Plan.

Relevant History:

There is no relevant history pertaining to this application.

Existing Use(s):

Residential use class 1: dwelling house.

Brief Description of Development:

This application is to demolish the existing outbuilding which is situated behind (north of) the double garage, to the east of the site. Erect a slightly larger 8m x 4m single storey metal shed to house the garden mower and machinery, in the same location as the previous outbuilding. The new outbuilding will have a shallow pitched roof.

Relevant Policies of any Plan, Subject Plan or Local Planning Brief:

GP8: Design

GP9: Sustainable Development

GP13: Householder Development

Representations:

There has been one letter of representation and the issues are:

'The objection is that the new outbuilding will have a negative impact on the reasonable enjoyment of the neighbours property, which is the property to the east of Dire Straits. The pitched roof will be significantly higher than the roof of the current outbuilding. Thus it will reduce the amount of evening sun that the neighbour's property enjoys. It will also dominate their western boundary, making their property feel more closed in. If the new outbuilding were to have a flat roof the neighbours would have no objection, providing the wall height of the new building remained unchanged.'

Consultations:

None

Summary of Issues:

- Design of the development.
- Impact of the development on the character and appearance of the area.
- Impact of the development on neighbouring properties.

Assessment against:

1 - Purposes of the law.

The objectives of the Law, as set out in Section 1(2), have been considered and this forms part of the assessment of policy issues as set out in 2 below.

2 - Relevant policies of any Plan, Subject Plan or Local Planning Brief.

The new shed is only 1.5m wider than the existing shed, which means the height of the ridge is not going to be significantly higher than the existing, especially as it has a shallow pitch. The boundary between the two properties is an established hedge. The size, mass and scale of the new shed is considered appropriate and acceptable.

The new shed is not considered to have any detrimental impact on the character of the area, nor will it have any adverse effects on neighbour amenity as the location of the shed, albeit close to the boundary is not located close to the most private areas of the neighbours garden.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

3 - General material considerations set out in the General Provisions Ordinance.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application. Where relevant the issues are considered in section 2 above.

4 - Additional considerations (for protected trees, monuments, buildings and/or SSS's).

The proposal would have no impact on Protected Buildings, Trees or Monuments or on SSS's.
