Conclusion/Brief comment:

This application is to erect an 8.9sqm shed in the south corner of the agricultural land to store equipment to maintain the agricultural land.

Had the shed been a little smaller (6sqm) it would have been exempt from requiring planning approval. However, even though the proposed shed is nearly 9sqm, and its location on the land is near the road, the location of the land is at the end of the clos and the shed is set against a high boundary hedge, therefore it would not be overly prominent in public views and it would be seen in context with the surrounding residential developments.

The positioning of the shed on the agricultural land is not considered to have any detrimental impact on the character and appearance of the surrounding area, nor will it have any adverse effects on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
