OFFICER'S REPORT

Brief Description of the site:

The property known as 'Maple Leaf Cottage' is a part single storey part two storey converted dwelling which is located on the southside of an old farm complex called La Cache Farm. The dwelling is attached to another two storey converted building, the two structures were probably one large storage barn before conversion. Both properties face north onto the shared access road which leads onto Rue de la Cache to the east. To the west is a commercial garage, to the south another commercial building, and to the north across the access road is another converted farm building. The property is located Outside of the Centres and is within a Conservation Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to erect a first floor extension above the west single storey part of the building to house an additional bedroom and bathroom.

The first floor accommodation will have a dormer on the north elevation, serving the bathroom, so the glazing is likely to be obscure, if not the window overlooks the access road rather than any private amenity space, so it is considered to be acceptable.

The rear bedroom window will have a southerly outlook, over a commercial warehouse. Views over to the neighbours garden are either oblique or over 10m away and not to the more private amenity areas which tend to be closer to the rear elevation of the property. The rear bedroom window is considered to be acceptable. The rooflights would be high level and would not give rise to any overlooking.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the special quality, character and amenity of the surrounding conservation area, and as discussed above the proposals will not have any impacts on any of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
