INFORMATIVES

The Authority does not recognise all of the land outlined on the submitted plan as forming the domestic curtilage associated with the dwelling presently known as La Petite Hure.

OFFICER'S REPORT

Brief Description of the site:

The property known as 'La Petite Hure' is a mid-twentieth century bungalow, which sits in the middle of the plot.

Val au Bourg lane comes down from the north, and winds around the west and south of the property, forming the roadside boundary. The vehicular access lies to the north-west of the site.

The land falls in a north-south direction. The neighbouring dwelling to the north (some 50 metres away) is at a slightly higher level, with neighbouring properties to the south and west at a lower level.

The agricultural field to the east of the dwelling also falls under the same ownership.

The dwelling is located Outside of the Centres as defined in the Island Development Plan. The agricultural field to the east lies within an Agriculture Priority Area.

Planning permission is sought to erect a single storey flat roof extension with raised terrace area and rooflight to the south (rear) elevation, and erect a single storey flat roof extension and rooflights to the north (front) elevation. It is understood that the extension to the front (north) of the property is exempt.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposed development represents a modest sized addition to the property, is subservient and proportionate, and adopts a good standard of design by virtue of its scale, form, massing, siting and materials.

Due to its scale, size, relationship to the original house, and existing boundary treatment, the proposal is not considered to have a significant detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents, for the purposes of Policy GP8 and GP13.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
