Conclusion/Brief comment:

This application is to remove the overgrown boundary hedge from the north, west and south boundaries and replace with a 1.8m high fence.

The overgrown hedge is made up of several Leylandii, which are now fully grown trees that do not give the privacy they once would have when smaller. At present there is already a fence erected inside the hedge to prevent looking into the property through the tree trunks (this will be removed with the trees).

The view of a fence is much harsher than the view of a green hedge. The application was deferred to address the appearance of the fence when viewed from the access track. The applicants have agreed to plant a new native hedge on the outside of the northern boundary to soften the appearance of the new fence.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
