Conclusion/Brief comment:

Planning permission is sought to erect a glasshouse within the garden area of the residential property, towards the southwest corner of the site. The glasshouse would be used for personal use by the applicant(s).

Although visible from Rue de L'Essart the proposal is of high quality design, limited scale, mass and form and would be seen in context with a much larger outbuilding situated immediately to the south within the garden area of the neighbouring

property (Saska). The proposal would therefore not negatively affect the openness or landscape character of the surrounding area.

Given the position of the proposed glasshouse and its relationship and distance from the neighbouring property to the south, it would not have any significant impact on the amenities afforded to the occupiers with regard to sunlight, daylight or loss of privacy.

The glasshouse would be situated circa 30m from the protected building (the main dwelling) and at this distance would not harm its special interest or its setting.

The proposal would not harm highway safety.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
