Conclusion/Brief comment:

This application is to demolish the chimney and enclose the front porch, remove some hedges and erect fencing to the northeast, southeast and southwest boundaries.

Initially the proposals were showing all the fences at 6ft high and no planting. The application was deferred to allow the applicant to show a reduction in height of the fence closest to the road and to soften the fence along the boundary at the side of the dwelling with planting.

The fence closest to the road on the northeast boundary will start at 1.2m high, stepping up to 1.5m high and then in line with the dwelling raising to 1.8m high, with just under 200mm high trellis above for the rest of the boundary and on the southeast boundary the two southern boundaries have a 2m high fence and the northside of the fence facing Route du Camp du Roi will have climbing roses and planting growing in front of it to soften the fence when viewed from the road.

The proposals are considered to achieve a good standard of design. The proposals are not considered to have any detrimental impacts on the character and appearance of the surrounding area, nor will they have any adverse effects on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
