Conclusion/Brief comment:

This application seeks to vary the permission previously granted under FULL/2020/2492 to erect 5no shepherd huts. Only 3no of the approved 5no huts have been installed (Nos 2, 3 & 4 as shown on the previously approved drawings, and 1, 4 & 5 as labelled on the drawings submitted as part of this application). It is now proposed to alter one of the remaining huts (Hut 5 as shown on the previously approved drawings and 3 as shown on the drawings now submitted) to a Shire Hut, and to re-orientate and re-position the hut on site. The previously approved huts were mounted on wheels and comprised a single storey open plan unit with capacity

for two people to sleep. The proposed Shire Hut is built on the ground and includes a mezzanine floor, with capacity for sleeping 2 persons as proposed, although a further mezzanine area could be introduced to increase the sleeping capacity.

Whilst no longer movable, the hut remains a temporary structure, similar in nature to the safari tents on the upper level of the campsite and could be easily removed should the camping use cease.

The hut in question is discretely located on the site, and the proposed alternative would not give rise to any additional visual impacts. Both the finish of the hut and the landscaping on site are high quality and would mitigate any impacts which did arise.

The proposal could increase the capacity of the site by an additional two persons, however this would not generate significant additional disturbance or vehicles movements/parking requirements.

The proposal would therefore be in accordance with the purpose of the Law, material considerations and above cited planning policies.

It is noted that Hut 4 has been reoriented and repositioned on site relative to the previous approval, as shown on the plans now submitted. This can be accepted as a minor amendment to the previous approval.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
