Conclusion/Brief comment:

The poles and cameras are relatively modest in scale and within the context of the wider site, located between a fuel station and a staff car park, the poles and cameras would have a limited impact on the character and appearance of the area. In addition, in time as planting matures around the staff car park, the visual impact of the poles and cameras will further reduce.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
