Policies considered most relevant:

GP9: Sustainable development
GP13: Householder development

Conclusion/Brief comment:

Sited to the rear of the dwelling, the extension would not form a prominent feature from the public highway. The north-east gable would be visible from the public highway but the incorporation of a parapet wall would achieve a satisfactory standard of design. The extension would have no adverse effects on the character and visual amenity of the area. The proposal accords with Policies GP8 and GP13.

The extension is set back from the neighbouring boundary to the north-east and includes no fenestration in the north-east elevation. As a result the proposal would have no adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
