Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is a requirement under the Land Planning and Development (Guernsey) Law, 2005, when considering applications affecting protected buildings, to secure so far as possible that the special historic, architectural, traditional or other special characteristics (including setting) are preserved. This duty is reflected in Policy GP5 of the IDP.

In light of the relevant policies, the proposed covered store is a modest and subservient in terms of its size when compared to the host dwelling.

Whilst a pitch or a lean-to roof would normally be encouraged on a protected building to respect the traditional forms and character that such roof forms contain, the degree of harm to the protected building, character of the area and visual amenity, as a result of the proposal's flat roof design would not be unacceptable to justify refusal. On this basis, the reasonable aspirations of the property owner outweigh the harm on the protected building in light of Policy GP5.

Neighbour amenity will not be adversely affected.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
