INFORMATIVES

OFFICER'S REPORT

Brief Description of the site:

The application site comprises a detached two storey property with box dormer windows situated on a flat roof section of the roof of the premises. The property faces southwest towards Belval Road.

The site is situated Outside of the Centres and a small part of the site (the car parking and garden area to the east is within a Conservation Area and the remainder of the site (the property and the garden area to the west) fall outside of the Conservation Area.

Surrounding the site the area comprises residential properties to the south, east and west with the school playing fields to the north.

Conclusion/Brief comment:

Although part of the site is situated within a Conservation Area, the house itself falls outside of the Conservation Area boundary. Under the Land Planning and Development (Guernsey) Law, 2005 and Policy GP4 of the IDP the setting of Conservation Areas is not a consideration that can be considered in the assessment of an application. The development scheme relates only to the alteration to the roof of the main dwelling to allow for additional accommodation. Policy GP4 is therefore not engaged in the assessment of this application.

Properties within the area are of a mixed size and design. The existing roof form with boxed dormers is at odds to the character of the surrounding area. The alteration to the bulk and massing of the main dwelling resulting from the raise in the ridge height as proposed would have no adverse effects and would improve the general appearance of the host dwelling and the surrounding area.

The proposed dormer window would face east towards the neighbouring property in this direction (Kent Lodge). However, it would be setback from existing fenestration within this elevation situated closer to the neighbouring property. Furthermore, a separation distance of circa 20m would remain between windows, sufficient to prevent any undue harm from overlooking. Views from the proposed velux windows would not cause any harm to neighbour amenity.

The property is sufficient distance from neighbouring development and the proposal would not cause any undue harm with regard to overshadowing.

No alterations are proposed to the existing vehicle access or car parking at the site and the proposal would not cause harm to highway safety.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
