Conclusion/Brief comment:

This application is to install an awning over the front door on the west front elevation of the property.

For many years the front façade of the property had two awnings hanging over the two front windows either side of the front door. However, these two awnings have since been removed and this application is for a much smaller awning to go over the front door. The awning is to incorporate signage/advertising to all sides.

The proposal is considered to achieve a good standard of design, and the scale of the awning is not considered to have a detrimental effect on the character and amenity

of the surrounding conservation area, nor will it have any impacts on any of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
