It does not permit the creation of a separately occupied annex or an independent dwelling. (5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. OFFICER'S REPORT

The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to extend the property to the southeast raising the existing extensions ridge line so the whole of the property has the same ridge height. The extension will provide a bathroom, utility room and additional lounge at ground floor level and a master bedroom suite at first floor level. Plus, erect a raised terrace/balcony to the northwest elevation with external staircase (approx. 3.8m x 2.5m inc. stairs)

As described above the nearest neighbours are over 40m away, therefore the raised terrace/balcony is not considered to cause any overlooking and although it is close to the road it is screened by the mature planting along the boundary.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on any of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
