OFFICER'S REPORT

Brief Description of the site:

The application site, known as 'Chyebassa', consists of a semi-detached two storey dwelling-house located to the west of Route De La Ramee. The property is located in a Main Centre Outer Area as designated in the Island Development Plan.

Planning permission is sought to demolish a roadside pillar in order to increase the vehicular access to 4.6m. The roadside pillar currently serves as part of a pedestrian access to the property. The disturbed area of works would be finished in tarmac to match the driveway.

Conclusion/Brief comment:

Since application PAPP/2006/3122 was, there has been a material change in circumstances due to the introduction of a new planning policy framework (The Island Development Plan) which was enacted in 2016. The current application is assessed against relevant IDP policies.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The demolition of the pillar and widening the access to 4.6m is supported under policy, given that the proposed vehicular access width would not have a substantial detrimental effect on the character or appearance of the locality and would be appropriate to serve the dwelling. Consequently, the proposal achieves a good standard of design for the purposes of Policy GP8.

There will be no obvious change to visibility splays as a result of the development.

The proposal will not affect neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
