Conclusion/Brief comment:

This application is a partially retrospective application to remove a hedge and to erect a timber fence along the western boundary with the empty plot. The retrospective element is the hedge removal.

It has been a few years since the hedge was removed and one cannot see where the hedge used to be due to the new growth on all of the other adjacent planting.

There was initially concerns about the height of the fence forward of the building line, but after a deferral the applicants have submitted an elevation showing the continued decrease in height of the boundary fence from 1.8 close to the dwelling, decreasing in height to 1.5m, 1.2m and closest to the road 0.9m.

The proposals are considered to achieve a good standard of design, the scale and massing of the new fence is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
