OFFICER'S REPORT

Conclusion/Brief comment:

No.6 forms part of a terrace of similar buildings that make up the main Bridge frontage which faces east over the public highway to St Sampson's Harbour and is important in views across the area. Each building on the Bridge frontage comprises a retail or other commercial use at ground floor with supporting uses or residential accommodation on the upper floors. By virtue of their uniformity of scale and appearance, features, materials and proportions these buildings are identified within

the Appraisal as Buildings of Merit which make a positive contribution to the Conservation Area. The replacement of this timber-framed shop front window with a new timber-framed window (accoya, factory finished in white) will conserve the character, and appearance of the Conservation Area and ensures full compliance with Policy GP4 of the IDP and the Harbour Action Area LPB.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
