It does not permit the creation of a separately occupied annex or an independent dwelling. This would require a separate grant of planning permission and involve different planning policy considerations.

(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Planning permission is requested for variations to works previously approved to extend and alter the dwelling (FULL/2024/0920). The site comprises of a detached dwelling forming part of a ribbon development of residential properties to the north of Rue de La Ronde Cheminee. The site is Outside of the Centres and is bounded by an Area of Biodiversity Importance to the east.

Relevant History:

Policy GP9: Sustainable Development
Policy GP13: Householder Development

Conclusion/Brief comment:

Properties within the area are of a mixed size and design. The revised proposal including a modest additional increase to the ridge height would remain similar in scale and height to neighbouring properties. The overall design of the revised proposal remains similar to the approved scheme and it remains the case that the design would not cause sufficient harm to the appearance of the surroundings and the character and amenity of the locality to outweigh the support and flexibility for extensions and alterations to existing residential buildings as set out in Policy GP13. As a result, the proposal does not conflict with Policies GP8 and GP13.

The revised proposal will have no additional adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
