Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

Whilst the material, design and finish of the proposed gates is acceptable, it is important to ensure that the existing protruding stone forming part of the protected walls or gate pillars, however named, as shown on drawing ref: 6488/B/1, shall not be altered whatsoever as part of the installation of the new gates. A condition to this effect should be attached to the decision.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
